

EPS® 2775

All-Acrylic Emulsion

MARKET SEGMENT: SPECIALTY – ARTIST PAINT

COMMON APPLICATIONS: TOPCOAT

EPS® 2775 is an all-acrylic film-forming polymer that is an excellent choice for high quality artist paints and is formulated to meet ASTM D4236 requirements.

PERFORMANCE BENEFITS

- Non-yellowing
- Excellent mechanical and UV durability
- Excellent multi-substrate adhesion
- No intentionally added APEO surfactants
- No intentionally added fluorosurfactants
- Capable of near 0 VOC formulations
- Capable of meeting ACMI approval

TYPICAL PROPERTIES

Weight Solids	50.0 +/- 0.7%
Weight/Gallon	8.85 +/- 0.1
pH	8.5 – 9.0
Volume Solids	47.0 +/- 0.7%
MFFT	12.5° C

These typical properties do not represent specifications.

SUGGESTED COALESCING SOVENT(S)

(% Solvent on Binder Solids – Pass 40°F LTC Test)

Texanol and/or EPS 9147	4% Max
